experience. Select adventures include lunch. Current activities available at the resort include:

Helicopter Tours – Helicopter tours take passengers on a 20-minute flight directly over the Grand Canyon, flying 4,000 feet above the majestic Colorado River. As the helicopter descends 2,500 feet, guests will find themselves in between the walls of the canyon for a once-in-a-lifetime experience. All guests ages 2 and under will sit on the lap of a parent/guardian; children over 2 will sit in their own seat.

Horseback Riding Tours – On horseback riding adventures, guests will take in the beautiful scenic mountains with spectacular views. The 1-hour horseback ride includes a group tour into magnificent wildlife habitats and adventures through exciting ranch terrain. No experience is necessary, but all riders must be a minimum of 7 years old. In addition, private group horseback experiences, including optional overnight adventures, are available. Private rides may be customized to include rodeo events, horsemanship clinics, roping, team pinning events and other horse activities.

ATV Riding Tours – This is the perfect tour for visitors looking for an exciting outdoor adventure in a short amount of time. In this motorized, 1-hour-long scenic tour, guests will ride through the Joshua Tree Forest while exploring a variety of terrain and spectacular views. Guests must be at least 18 years old to drive the ATV. Guests ages 2 to 17 will ride in a 4-wheel, 5-seater Honda Pioneer off-highway vehicle (OHV) accompanied by a parent or guardian.
