<b>ABOUT INTERSTELLAR ARC:</b>	<p><i>Interstellar Arc</i> is the awe-inspiring, visionary new immersive experience at AREA15 from the Emmy®-winning creators at Felix &amp; Paul Studios. The most ambitious and convincing VR-based attraction ever conceived, the experience is set in the 25<sup>th</sup> century, when humanity has embarked on its first interstellar space exploration program. It begins when passengers arrive at Spaceport One, where they board the Interstellar Arc and enter a cryogenic sleep, awakening 262 years in the future as the ship approaches the distant exoplanet Arcadia, destined to be humanity's next home. As they prepare to inhabit their new planet, passengers are invited to explore the vast, gravity-defying environments of the Interstellar Arc, assisted by the Diplomat, an artificial intelligence designed to accompany and guide them through the spaceship. Their journey culminates at Cosmopolis, a sprawling city orbiting Arcadia, the new world where humankind's next chapter will begin.</p>
